Dear Mayor Perez:

I apologize that I am unable to join you on December 4 for the Project Homeless Connect event. Although another commitment prevents me from attending, I will be with you in spirit for this very significant and meaningful occasion.

I applaud your leadership in organizing this event, which will help so many homeless people to find essential housing and other important supporting services. This program and others like it are vital to address homelessness which often leads to hopelessness. I wish you much success with this event and its mission.

I look forward to joining you at future occasions.

Many thanks, and warmest regards

Sincerely,
